RESUME

2023

WORK EXPERIENCE

I have been working in the fields of production and post production for over 18 years.

I have a solid academic background in music and experience in art design, and I have studied for a BA in Art and Design in the School of Fine Arts, in the Aristotle University of Thessaloniki, in Greece. I have a diploma in Film direction and I am a blackmagic Davinci Resolve certified trainer.

I have worked in a large number of TV and Online commercial spots, contributing via various roles: as an editor, director, videographer, motion-graphics designer, sound designer and colorist.

In total, I have over 2000 verified productions in all kind of productions (Tv spots, minimentaries, corporate and product videos, trailers, TV shows, web series, documentaries and presentations) and an undisputable need to further extend my knowledge, as this is what I love to do!
